Country Specific Options

- Based on the results of the standard 24-hour test. Actual consumption depends on usage/position of the appliance.
- To achieve the declared energy consumption, the attached distanceholders have to be used. As a result, the appliance depth increases by about 3.5 cm. The appliance used without the distance holder is fully functional, but has a slightly higher energy consumption.

- Beverage centre with predefined temperature settings and option for individual settings through Home Connect App
- 5 safety glass shelves of which 4 are height adjustable
